

Ad Hoc Software Applications Development Committee Update  
For IAC Meeting, 10/21/2011

**Members**

Joy Bauder, Extension  
Mike Brake Center for Advising and Student Achievement,  
Bryan Carney, Advancement  
Andy Crane Engineering,  
James Davis, Engineering,  
Chris Dicamillo Warner College of Natural Resources,  
Doug Finnman IS ,  
Randy Miotke ACNS

**Meetings to-date**

**September 6, 2011**

Review charge from Pat Burns  
Roles and responsibilities  
The potential pilot project for this committee

**October 10, 2011**

Goal of the meeting  
Identify rough cut scope of project - how much is enough to go live?  
How much effort – not necessarily who is doing it  
Discuss system design methodologies brought up in Mike Brake's email  
Review requirements document  
Review kylan's analysis  
Identify missing project pieces  
Next steps

**First project identified – search/job application tool**

Project defined 3 years ago but did not move forward for funding  
Has a University-wide need and impact  
Have had meetings to discuss system requirements with an end-user group lead that includes:

Joanna Holliday, Engineering,  
kylan Marsh, Advancement;  
Chris Haase, OEO  
Chris Domanik, HR  
Janice Brown, CVMBS  
Janice; Jim Cox, Natural Sciences;  
Diana Prieto, OEO  
Carolyn Kasdorf, Advancement

Have a strong prototype in the Advancement Search application for university-wide use

**Next steps**

Submit proposal to Pat Burns and Amy Parsons for funding of search tool refinement/development

Identify and review other projects
