

IAC Unix User Group Minutes – December 15, 2010

While there's no formal charge from IAC, the group has decided that one was not required.

For the scope of this group, members decided not to restrict itself to Linux, but to all UNIX like operating systems

There is no desire to integrate with other user groups such as NCLUG. The focus should stay within CSU.

Curtis Brown selected as Chair, Ty Boyack selected as Co-Chair and Secretary

There will be a listserv created for use by the group

The group will meet quarterly, starting March

Resources to immediately share: Linked In, Centroid

Coming presentations in March: Cray
