

## **Attachment A**

### **EID for Retirees**

1. Proposed: To provide CSU retirees automatically with eIDs that will allow them to access to central computing and networking services.
2. Rationale - this will:
  - Provide an additional benefit to CSU employees, at little incremental cost to the University
  - Allow the University to maintain contact with more retirees
    - To receive free advice and counsel
    - To solicit donations
    - To increase attendance at CSU events
  - Eliminate current inconsistencies in available services
  - Reduce the current administrative effort of managing these accounts
  - Put CSU on a par with CSM
3. Discussion
  - Permitted if this is advertised as a "benefit"
  - Liability is low
