This document appears to be a flowchart or organizational chart detailing the structure of IT services at Colorado State University. It outlines various departments and roles within the IT organization, such as Academic Technology Group, Infrastructure, Networking Operations Center, Middleware & IAM, IT Security, Applications & User Support Services, and more. Each department or role is represented with a title and some level of detail, such as responsibility areas or additional names. The chart is visually rich with boxes connected by arrows, indicating hierarchy and reporting structures. The document is dated Revised 7/1/2018.
